BRIEF CRITERIA ANALYSIS

Combining Carroll, Gates and Miller into a fully renovated ML King as soon as 2026 will create a premier PK-08 academy in the neighborhood. This action will grow the school's enrollment, and the building footprint and location makes ML King the best school in the region to expand. As a result it is projected there will be a total of 911 students in grades PK-08 at the combined ML King, including 615 PK-02 students at the ML King at Carroll campus.

BENEFITS OF RIGHTSIZING

Rightsizing will lead to increased enrollment and additional resources. How those resources are used will be decided by the school's principal, staff and Campus Advisory Council. Rightsizing decisions will lead to early childhood services in every elementary school, fewer split grade levels or teaching assignments, more courses or full-time specialty teachers (art, music, AVID, etc), increased staff collaboration, additional student services (mental health, social work, academic intervention, etc), more robust dual language programs, greater access to extracurriculars, and increases to campus budgets for positions like library services, Family and Community Engagement Specialists, and instructional coaches.

With ML King receiving students from Gates, Carroll, and Miller, more students and families will gain access to:

- On-campus ALE, BSC, and ECSE instruction for students needing specialized programming;
- Full-time elementary music, elementary art, and middle school art teachers; and
- A new district-allocated Licensed Master of Social Work (LMSW) at the ML King campus.
